

EXPERIENCE

- Senior Product Designer

Bubble

Remote (US)

July 2023 - Present

 - Craft a seamless and engaging experience for users looking to extend Bubble with resources from our ecosystem.
 - Conduct UXR, A/B testing, and usability studies for all website projects, championing a data-driven design philosophy.
 - Lead the design system for a team of 10+ designers, building core components and establishing documentation and governance principles.
- Senior Product Designer

Zudy

Remote (US)

May 2021 - July 2023

 - Shaped design strategy at the company level, aligning UI/UX direction with business goals.
 - Led UI/UX design for client applications, and defined the visual identity for Vinyl, a SaaS no-code platform.
 - Created and maintained a Figma-based design system, improving design consistency across products.
- UX Developer

Calcium

Remote (US)

January 2021 - May 2021

 - Built custom web solutions for pharmaceutical clients, enhancing user experience and accessibility.
 - Conducted end-to-end UX reviews, with a focus on accessibility (WCAG compliance), and implemented solutions.
- UI/UX Designer & Front-End Developer

LINX LLC

Remote (US)

July 2023 - Present

 - Designed and built the front end of our websites and internal software, enhancing UX and increasing consistency.
 - Led a complete website redesign, improving user engagement and performance.
 - Front-end tech stack: HTML, CSS/SCSS, JavaScript, React, tying into a LAMP stack back-end.
